BURAK SEÇER

SOFTWARE ENGINEER

WORK EXPERIENCE

Present 2020

SOFTWARE ENGINEER – FULL STACK
At YemekSepeti

Istanbul

YemekSepeti is a company of Delivery Hero. It is used as a food order infrastructure all over Turkey. Banabi is a project of YemekSepeti. I am a member of Banabi's team which is an application that allows you to order your market needs by online. We use the Agile methodology and I personally used angular, reactJs and .net core as a full stack. My backend skills have improved more. I will use golang in my new team with aws(serveless) services. We have advanced log and search infrastructure (Solr-Elastic).

2018 - 2020

SOFTWARE ENGINEER – FULL STACK
At Sodyum

Istanbul

We managed a process that started with the demand collection system in the software for our main customers Vodafone and Digiturk. A CRM software which we can manage all processes from the incoming requests to sales and delivery to the customer have built by our team from scratch. At the same time, we showed the sales and other reports with graphics while doing these stuff. Sodyum which uses agile methodology have 15 workers. What we used: .Net core, redis, msSql, mongoDb, reactJs, mediatr, autoMapper, swagger, jwt, DDD, nodeJs.

2016 - 2018

SOFTWARE ENGINEER - BACKEND
At Alpata

Eskisehir

It was a process in which I took part in different projects for two years and delivered software solutions all over Turkey. Alpata has 20 employees. Alpata uses waterfall methodology. What we use is .Net framework, crystal report, msSql, wpf, rfid technology.

EDUCATION

2011 - 2016

SOFTWARE ENGINEERING
At Fırat University

Fırat

It is the first state software engineering department in Turkey. I learned the software engineering perspective there. I learned solving a problem, data structures, algorithms, agile, math and more.

2007 - 2011

HIGH SCHOOL
At Computer Vocational

Vocational

The high school was specialized for computer science. It prepared me for the college.

WHY ME?

I believe I am a good team member. Learning new stuffs and research the things that I don't know is a passion for me. I am calm under stress and I am patient for solving the problem. I always follow new technologies. I improve myself every year. Sometimes, the solution is so simple. You must have a different perspective.

HOBBIES

I am a very social person. I like playing piano, basketball and doing any sports. I write articles on my blog. I meet startup owners and listen to their idea. I think it is a nice hobby.

SKILLS

.Net Core

Golang

Orm: EntityFramwork, dapper

Angular

React Js
